

Dangerous Goods at Swissterminal

1. General regulations

Dangerous goods are located at the premises of Swissterminal only for the purpose of handling and for placing the containers at the disposal of further export and import transportation (intermediate storage for onward movement). An unlimited storage or an intermediate storage for traffic only within Switzerland of containers containing dangerous goods, as well as stuffing or stripping of dangerous goods are excepted.

2. Dangerous goods exemptions

Following danger classes are not allowed for transportation:

Dangerous Goods Exemption at Swissterminal AG		
At terminal Niederglatt currently no dangerous goods handling is possible.		
Not allowed for transport, handling or intermediate storage are compounds of following classes:		
Placard	Class	Restrictions
	Class 1	All UN-numbers. Exception: Munition of class 1.4S of UN-number 0012, 0014, 0044, 0055 only on our Terminal Basel as direct handling and with special permit of port authority
	Class 2	All UN-numbers of class 2.1 in tankcontainers and all UN-numbers of class 2.3
	Class 3	Tankcontainers of packaging group I and II, as well as all desensitized explosive compounds (Classification code "D")
	Class 4.1	All UN-numbers as from 3231 until and including 3240, as well all as desensitized explosive compounds (Classification code "D" and "DT")
	Class 4.2	Tankcontainers of packaging group I
	Class 4.3	Tankcontainers of packaging group I
	Class 5.1	Tankcontainers
	Class 5.2	All UN-numbers as from 3111 until and including 3120
	Class 6.1	Packaging group I (very toxic compound)
	Class 6.2	All UN-numbers
	Class 7	All UN-numbers
	Class 8	UN-number 1829, as well as tankcontainer of class 8, packaging group I

As of: 01.04.2018 / Jürg Wiggl

3. Tank containers containing dangerous goods

Frenkendorf and Birsfelden

Only direct handling allowed during hours of operation.

Basel

Intermediate storage for onward movement allowed for 24 hours maximum, in case of exceptions (such as weekends) for 48h with up to a maximum of 72h, and depending on availability of number of dangerous goods storing positions as well as only possible with valid pre-advise and reservation.

Niederglatt

Currently, no handling of dangerous goods is possible in Niederglatt.

4. Boxcontainers containing dangerous goods

Frenkendorf, Basel, Birsfelden

Intermediate storage for onward movement allowed for 24 hours maximum, in case of exceptions (such as weekends) for 48h with up to a maximum of 72h, and depending on availability of number of dangerous goods storing positions as well as only possible with valid pre-advise and reservation.

Niederglatt

Currently, no handling of dangerous goods is possible in Niederglatt.

5. Intermediate storage for onward movement over weekends

The dangerous good regulation is also valid for intermediate storage on weekends. As a consequence, containers containing dangerous goods being delivered to our terminals on Thursdays have to compulsory be transferred on following Friday. Dangerous goods containers arriving at our terminals on Fridays or Saturdays can be intermediately stored for the weekend

6. Extra costs for intermediate storage on weekends

Intermediately stored dangerous goods on a weekend have to be controlled according to the safety regulations and according to governmental legislation. Relevant costs will be debited accordingly to our customer.
