

In our technical department we have the following newly created vacancy

Electrical engineer 100% (m/f/d)

Your tasks

- Diagnosis, analysis and rectification of faults in the areas of electrical engineering, automation and speed control at all locations in France and Switzerland
- Carrying out ongoing maintenance and repairs to defective devices/machines
- Introduction of preventive measures to avoid disruptions
- Close cooperation with technicians and other departments to coordinate corrective measures during troubleshooting
- Creation of detailed reports on each intervention and maintenance of Swissterminal Quality Management

Your profile

- Bachelor's degree in electrical engineering, power electronics, automation or industrial computer science, plus 5 years operational experience in a similar role
- Fluent oral and written skills in at least two of the following languages: French, German and English
- High precision, due diligence and a team player
- Availability outside regular working hours (e.g. on-call duty) and in possession of a valid category B driver's license

The Swissterminal Group, headquartered in Frenkendorf, is a provider of integrated logistics services. Swissterminal operates efficient terminal facilities, depots and ports for combined container transport by barge, rail and lorry at five locations in Switzerland and three locations in France.

In addition to terminal activities and container transport, the service portfolio also includes barge transport, warehousing, storage, trading and the maintenance and repair of containers, as well as securing cold chains and customs clearance.

The international logistics company DP World has held shares in Swissterminal since January 2020.

We are looking for qualified, team-orientated candidates who have set themselves the goal of working in a modern, innovative and future-oriented company. If you are not fazed by hectic situations and have a customer-orientated, competent manner, we look forward to receiving your application.

Send your application by e-mail to
